# Epson S1000II-NW

Driverless Network Desktop
Check Scanner

## Driverless network check scanner designed for financial institutions and their customers for remote deposit or back-office capture.

**Simplified driverless setup** — driverless Web API for easy setup, maintenance and future-proofing

**Multi-interface support** — Ethernet, optional Wi-Fi® and Ethernet over USB connectivity, designed for both Windows® and macOS®

**Quick scanning** — available in 30 dpm and 60 dpm configurations

**Easily identify error checks** — two-pocket exit automatically segregates error checks from the rest of the batch

**High-quality image capture** — image resolution up to 200 dpi, for sharpness and clarity for captured images

**Eliminate misread checks** — 99.9 percent MICR accuracy helps ensure successful capture of checks

**Durable industrial design** — delivers optimal efficiency while taking up limited space

**Easy franking and endorsement** — built-in electronic endorsement and franking features

**Comprehensive service and support** — dedicated technical resource team available for customized solutions

**World-class service and support** — industry-leading 2-year limited warranty, with extended service options available
